

SUNIL ASHOK ABHRE

SUMMARY

My objective is to create innovative, user-friendly software solutions that have a positive impact. I will leverage my technical skills, collaborate with cross-functional teams, and continuously improve to contribute to my organization's growth and success while advancing my career as a skilled software developer.

PROJECTS

Courier Management System

February 2023–March 2023

Infoway technology,Pune (CDAC)

PLATFORM :- SPRING BOOT, MYSQL, REACTJS

Discover a visionary Courier Management System that seamlessly orchestrates users, administrators, and agents in perfect harmony. Seamlessly navigate orders as users, empower administrators with oversight tools, and enable agents to deliver with precision. Uniting efficiency, control, and delivery excellence – experience logistics at its finest.

Improving efficiency of Electrical Vehicle system by using super capacitor array

June 2019–March 2020

SETI,Panhala

PLATFORM :- EV Platform

Batteries are used as a power source in electrical vehicle system. In this project the efficiency of electrical vehicle system has been increased by using combination of battery and supercapacitor bank.

Project Title: Wedding Application for Android

PLATFORM :- Flutter

Designed and led the development of user interfaces for the Wedding Application project on the Android platform. Collaborated seamlessly with developers to integrate visually appealing and user-friendly designs, contributing to an intuitive and enhanced user experience.
